

Affiliate plugin

Hi,

Master Study theme provide with an affiliate program that leave users to win points.

<https://escuela-ray-bolivar-sosa.com/user-account/winning-history/>

<https://prnt.sc/12isd2q>

Vocabulary

referred. People that clic in a link shared for a referrer.

Referrer: people in the affiliate program that share links of the school.

What I need to change

I need to provide the option to win money when new users referred by referrer buy something on school. I want to reward them (afiliates referrer) "people that share link and get traffic to website" only 1 time with 75 % of that user have spent buying a course or a product. User buy a course of 39.99 then I will reward 30€. New user spent 65 I will reward with 48.75€.

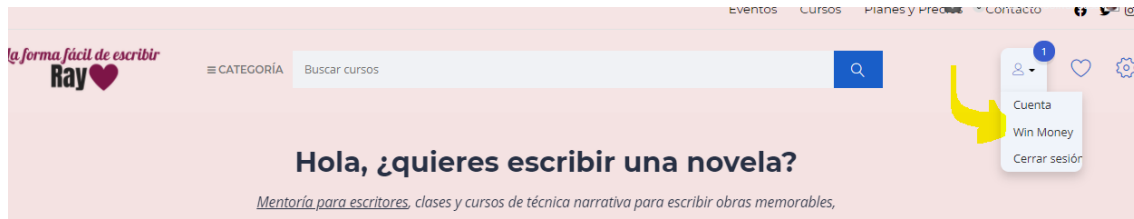

I need this options.

- 1) Basic stadistical information (reports) of money winned every month and pending payments. You can inspire in plugin stadistical options.
- 2) New afiliates need to add paypal account information (a tab to insert email) to do payment every month. I will do manual payment.
- 3) A creator of links for specific pages. General link is created for every user, the theme do it. But if the user want to share an specific link I need to provide the option to insert the link of the specific course and provide them a unique link with ID to identify the affiliate and grant with the reward when new users (referred) buy.
- 4) Help page (is done). <https://escuela-ray-bolivar-sosa.com/programa-de-afiliados/>
- 5) Send email to Referrer when win money.

*I will pay after 30 days. So I only need send them a notification when somebody buy a course. They need to know that there are money waiting for them.

How its Works

I have added a link on main menú that link this page.

People will land here.

<https://escuela-ray-bolivar-sosa.com/programa-de-afiliados/>

This is first page they will see. There I explain how the program Works. Please check screenshot.

<https://prnt.sc/12is4np>

When people join the program (clicking over Unete al programa) they will access a new dashboard.

In the future, when they login and clic over Win money, instead of appear this page <https://escuela-ray-bolivar-sosa.com/programa-de-afiliados/>

They will be redirected to the dashboard.

Dashboard (affiliate program)

I need this options.

- 1) Basic stadistical information (reports) of money winned every month and pending payments. You can inspire in plugin stadistical options.
- 2) New afiliates need to add paypal account information (a tab to insert email) This is the requeriment to join the program.
- 3) Help page. The help page will be this <https://escuela-ray-bolivar-sosa.com/programa-de-afiliados/> After leave email, users still can check help page in dashboard.
